

2022 Research Week

Making Data Meaningful

Bendigo Health's Research Week 2022 kicks off on Monday 17th October!

Research Week 2022 is a hybrid program of interactive sessions designed to support staff in undertaking research and making health data meaningful. You are invited to come along on the research journey exploring this year's theme – "Making Data Meaningful". Our expert speakers will be discussing aspects of data collection, use and translation into improved healthcare and/or health outcomes for our regional communities.

This year we have two Symposium highlights: Wednesday 19th October is the Research Symposium Day showcasing the great research currently being undertaken at Bendigo Health. On Friday 21st October the Loddon Mallee Health Care Worker COVID Study team will conduct a mini-symposium to discuss different aspects of the study and how participants are contributing valuable data to help understand the impacts of COVID on our regional healthcare workforce.

We look forward to seeing you during this exciting week!

Time	Date				
	Monday 17th October	Tuesday 18th October	Wednesday 19th October	Thursday 20th October	Friday 21st October
Midday	<p>12.00 – 1.00pm</p> <p>We have data - how do we make it meaningful?</p> <p>Dr George Mnatzaganian, Dr Steve Barrett and Dr Ange Crombie will discuss examples of making health data meaningful</p>	<p>12.00 – 1.00pm</p> <p>Building Clinical Trial capacity and capability at Bendigo Health</p> <p>Narelle McPhee will provide an overview of Cancer Clinical Trials</p> <p>Kate Booth & Sloane Birrell will discuss Bendigo Health's Clinical Trials Research Support Service (CTRSS)</p> <p>Fiona McGregor will talk about Teletrials</p>	<p>11.30 am - 3.00pm</p> <p>Bendigo Health Research Symposium</p> <p>11.30 - 12.00pm Welcome & Keynote Speaker</p> <p>12.00 - 12.45pm Oral presentations</p> <p>12.45 - 1.00pm Poster presentations</p>	<p>12.00 – 1.00pm</p> <p>Entrepreneurs, Innovation and Acceleration</p> <p>Kylie Ovenden will discuss new and innovative programs that support staff in translating ideas into practical care solutions</p> <p>Matt Frith will provide an overview of the MedTech Actuator and how it connects the region's broad ecosystem to empower founders to build the next wave of global MedTech, HealthTech and BioTech success stories</p>	<p>10.00am - 2.45pm</p> <p>Loddon Mallee Health Care Worker COVID Study Mini-Scientific Symposium</p> <p>10:00am – 12:00pm</p> <p>Associate Professor Mark McEvoy - 'The value of longitudinal research'</p> <p>Kevin Masman - 'Preparing longitudinal research data for use and protecting anonymity in a rural health setting'</p> <p>Gabrielle Caccaviello - 'Lessons learned from recruiting healthcare workers for a longitudinal study'</p>
Afternoon	<p>2.00 - 3.00pm</p> <p>Data and Ethics</p> <p>Rob Champion, Bendigo Health HREC member, will present some categorical data related to research projects at Bendigo Health in 2021 - 22, and will discuss key ethical issues such as consent, data identifiability, data security and participant privacy</p>	<p>Dr Ange Crombie will provide an overview of the National Clinical Trials Governance Framework (NCTGF)</p> <p>3:00 – 4:00pm</p> <p>Community Event – Cancer Clinical Trials in Our Region</p> <p>Presented by Alfred Health TrialHub and Bendigo Health Cancer Centre</p>	<p>Break</p> <p>2.00 - 2.45pm Oral presentations</p> <p>2.45 - 2.50 Poster presentations</p> <p>2.50 - 3.00 Voting (best poster) and Close</p> <p>Six oral presentations and six e-poster presentations by various Bendigo Health staff</p>	<p>Break</p> <p>1:00 – 2:45pm</p> <p>Associate Professor Mark McEvoy - 'The Loddon Mallee Healthcare Worker COVID Study: Findings from the baseline assessment' and</p> <p>'The Loddon Mallee Healthcare Worker COVID Study: Opportunities for research</p>
